

The PCB Assembly Specialist

## **Environmental Policy**

Here at ESD Ltd we believe that we all have a responsibility to care for and protect the environment. We are fully committed to improving environmental performance across all of our business activities, and will encourage our business partners and members of the wider community to support us in this.

In particular we will strive to:

- minimise and reduce any negative impact we may have on the natural environment whilst running normal business activities.
- improve the environment wherever possible and will always comply with relevant regulatory requirements.
- find and implement continuous improvements of environmental performance.
- regularly assess the environmental impact of our operations.
